Buy this, turn visual feedback to 200% And enjoy the awesome lightshow!! :D. I find this loco a bit of a let down after driving the Peppercorn K1. Chuffing sounds are poor. As you speed up they sound more like drums.. A nice little time killer with super simple gameplay, very similar to Super Hexagon. Basically, It's Super Hexagon on a rail.

Each game could last between 30 seconds to 30 minutes.

Despite the super simple gameplay the difficulty can range from challenging to rage-inducing.

If you're up to the challenge though or want something to keep you busy atleast, give it a shot!. Nothing exceptional, but it's overall a decent platform game, you may want to get it on sale.. Cool Visual Novel and easy 100% achievements.

I'm not receiving storyline quests...??? Bought the pack and everything was great. Really cool fish. New gear. Good locations. Great quests. Completed several of the storyline quests. Then I got a quest involving four different species of trout. Was taking too long, and I have limited time, so I decided to skip the quest. I paid the pearls to skip, and was given the reward (Nevia Premium reel), which was very cool. Since then, I've never been offered another storyline quest from Westfall! Progress is barely started so I know the quest I skipped was not the final one. This is frustrating, and I can't find any way to get support. Steam doesn't support it, and the website doesn't offer the ability to request support. Since it's been more than 14 days since purchase, I can't even get a refund. This is ridiculous. Even the paid DLC is not supported? The whole game has been ruined for me. I was playing this game everytime I had free time. Now I basically don't play it at all. Very upsetting.. I had to play this in window mode to avoid crashes. If you do not mind just how similar this game, especially the main character, is to Leisure Suit Larry, try this game. It is more subtle, and the wild west environment makes for an exciting effect. The ending might come as a surprise to some, but to me, it felt right! There are few games where the hero undergoes a major character development, and this game is one of them! Would recommend!. A graphically amazing game with extremely novel gameplay, you play as a hooded huntress, using your changing magical powers to help you progress through the puzzles in the game. The best game I've tested for a while, and thoroughly enjoyable.

Make up your own mind with this gameplay: <https://youtu.be/myHABfttBtc>. Do not get it when you have a Mac. The game runs, but there are technical problems. These problems are things like oversized mouse cursors that cover up text and important dialogs. This makes the game not very enjoyable to play on a Mac. Unfortunately their technical support seems to be unresponsive.

On Windows it runs fine. So get it when you plan to use Windows, but not for Mac.. This has decent value, but the product details are incorrect.

1. It says the items will be "account bound" but they are NOT. This item cannot be transferred between characters.
2. The image says "play with infinite fatigue points", but you can't. This potion is usable once per day.\
3. This item is also only usable until lvl 70, further limiting the usefulness of this item.. Salvation is the third in the Love Chronicles series. And this time, the evil witch Alura is attacking your kingdom. And she's very powerful. How powerful, you ask? Well, the bright idea your wizard comes up with is to send you back in time to rescue Alura before she's corrupted to evil.. by basically the Lord of Darkness. That's right, dealing with Alura in the present is too hard, so we will send you against basically a demon.

The plot is engaging, the games are exciting, and the characters vibrant.

Would recommend buying the bundle.. So beautiful but so far from the characters and why the hell do they have to talk all the god damn TIME?!!
