LargeBackup to DVD Crack  
For Windows is reliable  
software which will make  
and burn multiple DVD/CD  
discs from one single  
folder. Make backup of  
your entire C,D,D,E,F  
drives with just a few

---

clicks. You'll be able to backup full or differential disc or disks with help of file filters to make it easier. Automatic file splitter will help you split your files to discs in order to make them burnable by use of your Windows burning software. LargeBackup to DVD Crack For Windows is easy to use and fully compatible with XP, Vista, 7, and Windows 8. Two main modes of operation

---

are available: Full backup and differential backup modes. Full mode means you will make one single image from your current disc while differential backup means that you will make 2 image files which you can restore to working discs in case something went wrong during backup process. Burn your backup, so you always have it handy. Small or large files, pictures, and all kinds of

---

multimedia data can be uploaded to and burned to a disc with the help of this reliable software tool.

LargeBackup to DVD makes your backup an instant. Since the backup files are divided into smaller data files, burning and restoring processes become much easier and faster. Unlike other software which brings you just one CD/DVD with burned data, you'll be able

---

to make multiple images to save time and space. Try SmallBackup DVD to find yourself how to make professional data backup. It is relatively small and easy-to-use software, which is enough to create full disc image or differential image file, according to the features of Windows burning software. Have you ever encountered files which are too large to be backed

---

up onto one single disc?  
This is a major drawback of  
some previous backup  
softwares, but it is also an  
easy way of making your  
data backup quicker,  
smaller, and easier.

LargeBackup to DVD will  
help you to save your time  
and effort for using your  
backup disc. It is an ideal  
tool to backup data from  
hard disc onto CDs and  
DVDs and especially  
capable of backing up
